

ACADEMIC PROGRAMS

Southeast New Mexico College (SENMC) awards both associate degrees, associate of applied science degrees and certificates. Associate and associate applied science degrees must have a minimum of a minimum of 60 semester credits (excluding "N" suffix courses), see each individual degree requirements for the number of hours require for that degree.

Transfer students must complete a minimum 15 credits of an associate or associate of applied science degree at SENMC. The minimum of hours that must be completed at SENMC for certificates is designated on those certificates.
